Dear Dr. Dretchen:

The Office for Human Research Protections (OHRP) has reviewed your report of September 28, 2001, regarding the above referenced research project conducted by Georgetown University (GU).

Based on its review of your report, OHRP has determined that the corrective actions taken by GU appropriately address the issues raised.

As a result, there should be no need for further involvement of OHRP in this matter. Of course, OHRP must be notified should new information be identified which might alter this determination.

OHRP appreciates your institution's continued commitment to the protection of human research subjects. Do not hesitate to contact me if you have any questions regarding this matter.

Sincerely,
